

### Attachment 3 – (Typical) Retail Site Hazardous Areas Map

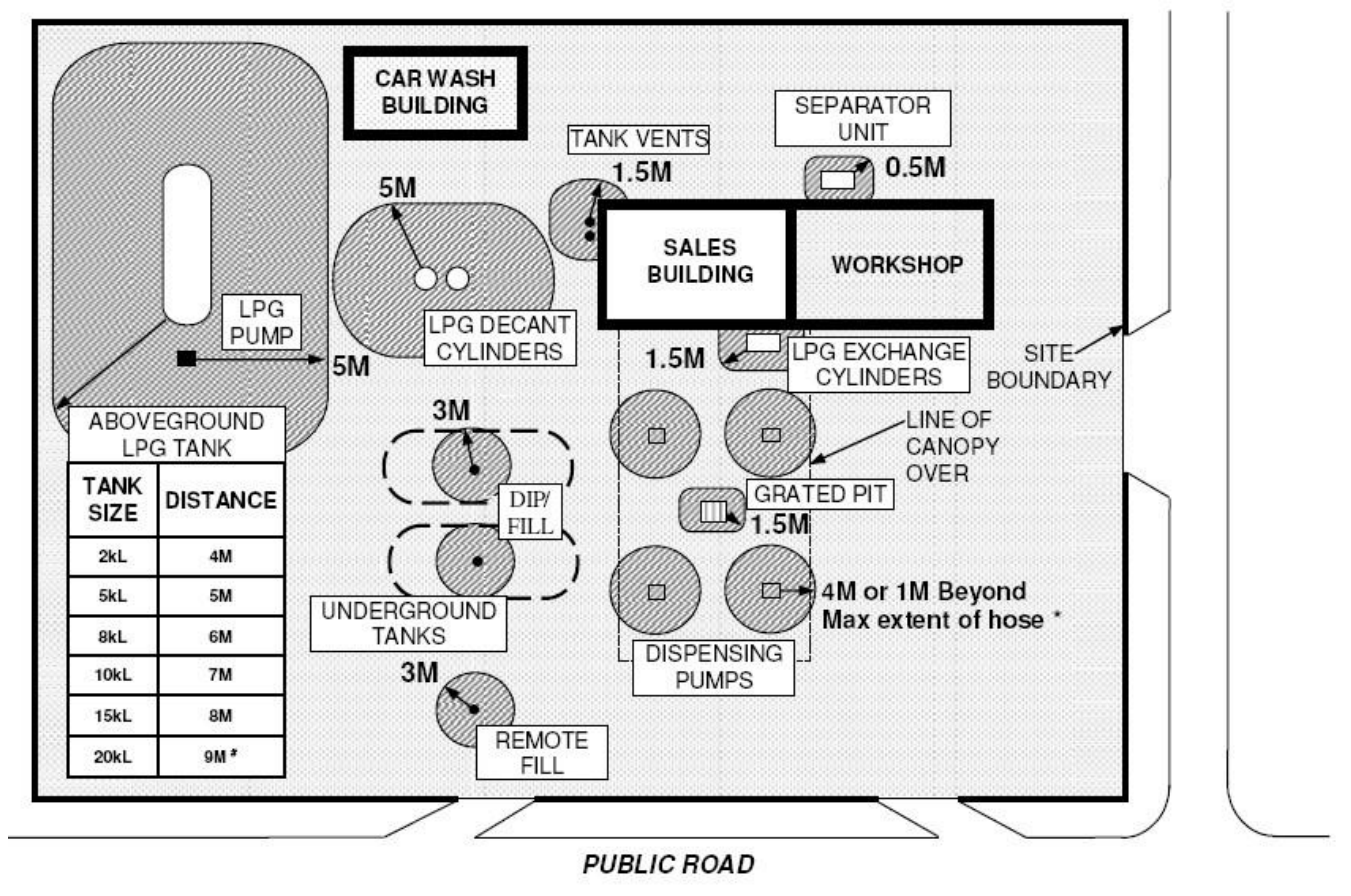

Hazardous zones for all sites are as per the Classification of Hazardous areas AS/NZS 2430.3:2004. A plan view of the typical zones is shown below. The Retail site has the specific HSNO drawing for the site which includes the vertical hazardous zone measurements which should also be considered.

The extent of the hazardous areas may increase under assessment by the Permit Issuer but must not be less than the distances shown.

Any product transfer, pipeline modifications or repairs, excavations could extend hazardous areas.

The Retail shop is an excluded area.

Whole site is a restricted area with a tanker anywhere on site and for a half hour following delivery.

**SMOKING IS NOT PERMITTED ON SITE**

Cell phones are only to be used in the shop or off the site boundary
